Daniel Nnadi

AI Automation Engineer · Full-Stack Web Developer

Nigeria (remote) · danielnnadi812@gmail.com · Upwork profile · TikTok @cyberdevzilo

Summary

I build practical software that removes repetitive work: WhatsApp and Telegram assistants, AI-assisted workflows, and web applications. I work from the workflow to the architecture, implementation and testing, using deterministic code for important rules and AI where it adds value. I also teach AI and web skills to young learners.

Projects

Zilo PA: WhatsApp AI assistant — Personal project

- Replies to contacts in the owner's tone, in English or Pidgin, with per-contact context and handover to the owner.
- Telegram control panel for on/off, do-not-disturb, broadcasts and contact management.
- Multi-provider LLM fallback. Node.js (Baileys), Python (FastAPI), Groq, SQLite.

Channel replicator — Personal project

- Copies posts from a connected source channel to a destination channel, where permissions allow.

Face Attendance Pro — Personal project

- Webcam face recognition that logs attendance with timestamps.

Website designs: Prime Healthcare, NaijaRoots Global — Self-initiated frontend work

- Responsive landing pages built with Next.js, React and Tailwind CSS. Prime Healthcare is a redesign exercise, not affiliated with the company.

HouseFinder NG · Zilo Music · AI chatbot for schools — Personal projects

- Property-listing collector with a legitimacy score; offline native Android music player; school AI tutor platform.

Teaching

AI GenAlphaz Bootcamp, instructor — Summer programme, ages 10–17

- 3-week live online programme covering prompt engineering, responsible AI, branding, website building and beginner Python, ending with a student portfolio showcase.

Skills

Languages	Python, JavaScript, SQL, HTML, CSS
Frontend	React, Next.js, Tailwind CSS
Backend and data	Node.js, FastAPI, REST APIs, webhooks, SQLite, PostgreSQL, Supabase
AI and automation	LLM APIs (Groq, Claude, OpenAI, Gemini), prompt design, Playwright, web scraping
Messaging	WhatsApp (Baileys), Telegram Bot API
Workflow	Git, GitHub, Linux

Certificates

- **Claude 101**, Anthropic
- **Introduction to Generative AI Studio**, Google Cloud via Simplilearn SkillUP, 8 July 2026 (code 10444835)
